Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Gazette) Department, No. 179, dated the 17th February 1891.

RESOLUTION.—On the approaching retirement of Colonel E. L. Ommanney, C.S.I., Commissioner of the Peshávar Division, after a service of over 30 years in the Punjab Commission, nearly all of which have been passed upon the frontier, the Lieutenant-Governor desires to place on record his high appreciation of that officer's services.

After the siege and capture of Delhi, at which he was present, Colonel Ommanney was appointed Assistant to the Commissioner and placed in charge of the ex-King of Delhi. In this capacity he had to conduct the exiled family to Burma and to remain in charge there for some time. Returning to the Punjab in 1859 he was posted to the frontier in the following year and served there as Assistant Commissioner in the Peshávar and Deraját Divisions till 1866, when he was appointed to officiate as Deputy Commissioner of Hazára; in that capacity on the occasion of the First Black Mountain Expedition in 1868 he accompanied the troops and for his services received the thanks of the Governor-General in Council. From 1870—1876 Colonel Ommanney held

charge of the Pesháwar District, in which his administration was markedly successful. On return from the only period of furlough taken by him during his whole service, Colonel Ommanney was again posted to the Hazára District, and later on, after holding the Mooltan Division for a short period, was appointed in 1880 to officiate as Commissioner of the Deraját, in which rank he was confirmed in 1884. Since then he has held uninterrupted charge of the Deraját and Pesháwar Divisions. In the autumn of 1888 Colonel Ommanney accompanied the Second Black Mountain Expedition as Chief Political Officer. His services in that capacity were again specially acknowledged by the Governor-General in Council, and in recognition of them and of his distinguished career on the frontier Her Majesty the Queen and Empress of India was graciously pleased to appoint him to be a Companion of the Most Exalted Order of the Star of India on the 24th May 1889.

Throughout his long service Colonel Ommanney has won the respect of all with whom he has been connected by his eminently straightforward and considerate character, by his kindly sympathy with all classes, and by his devotion to the public service, and his career has worthily maintained the best traditions of the distinguished names with which the administration of the Punjab Frontier is inseparably connected. Colonel Ommanney will carry with him on his retirement the best wishes of the Lieutenant-Governor and of his brother officers and the esteem of the border people among whom he has lived for so many years.

By order of the Hon'ble the Lieutenant-Governor,

H. C. FANSHAWE,

Offg. Chief Secretary to Government, Punjab.

The 4th March 1891.

No. 58.—Notification.—With the previous sanction of His Excellency the Governor-General in Council the Hon'ble the Lieutenant-Governor is pleased to lay down the following rule for the assessment, until further orders, of the "owner's rate" under Sections 37, 38 and 39 of Act VIII of 1873 (The Northern India Canal and Drainage Act) on all lands irrigated from the Western Jumna Canal in the Hissar District :—

RULE.

In all estates receiving irrigation from the Western Jumna Canal the owner's rate shall, until further orders, be assessed at one-half of the occupier's rate leviable on occupiers of canal-irrigated lands.

Proviso.—The owner's rate shall nowhere exceed the sum which under the rules for the time being in force for the assessment of land revenue might be assessed on such land on account of the increase in the annual value of produce thereof caused by the canal.

2. The rate will be first collected from the autumn harvest of 1890.

IRRIGATION.

The 26th February 1891.

No. 6.—*Notification.*—In continuation of Notifications Nos. 648 S. and 649 S., dated the 16th August 1890, and with the previous sanction of the Governor-General in Council, the Hon'ble the Lieutenant-Governor is pleased to make the following rules under Sections 36, 37 and 75 of Act VIII of 1873 (The Northern India Canal and Drainage Act), for the levy and payment of occupier's and owner's rates on the Sháh Nahr Canal in the Hoshiárpur District and for the general management of the said canal :—

RULES.

Of Occupier's Rate—(Sections 36 *and* 75).

1. Water supplied from the Sháh Nahr Canal for the purpose of irrigation shall be charged for at a rate or rates to be fixed from time to time by order of the Local Government, provided that in the case of shareholders the rate shall in no case exceed Re. 1-6 per local ghumáo, *i.e.*, ·759 acre. The rate shall be charged on all lands, whether irrigated in one or in both harvests.

2. Occupier's rate due in respect of the irrigation for any particular crop shall be realized along with the land revenue due upon that crop and by the same agency.

Of an Owner's Rate—(Sections 37 *and* 75).

3. An owner's rate on the scale of Re. 1-2 per local ghumáo, *i.e.*, ·759 acre, shall be imposed on the owners of all lands irrigated from the Sháh Nahr Canal, whether for the spring or for the autumn crop. Provided that if an owner's rate has been imposed on account of the irrigation of any land for the autumn crop, then no owner's rate shall be imposed on account of the irrigation of the same land for the spring crop immediately ensuing.

4. Owner's rate shall be collected along with the land revenue and by the same agency.

Remission of Occupier's and Owner's Rates in certain cases—(Sections 36, 37 *and* 75).

5. In the event of the failure of an irrigated crop owing to a deficiency in the water-supply in the canal, the occupier's rate and owner's rate assessable on the land upon which the crop was sown shall be remitted, provided that—

(1) land producing an irrigated crop in either the kharíf or the rabi harvest shall be liable to assessment at full rates ; and

(2) if the failure of the crop is only partial, such portion of the occupier's rate and owner's rate shall be remitted as the Deputy Commissioner considers proper.

Of Miscellaneous matters—(Section 75).

6. All sums collected on account of owner's rate shall be credited to Government as land revenue.

7. The receipts from occupier's rate shall be disposed of as follows :—

(*a*). Of the total *assessment* 8 annas per ghumáo shall be paid to the shareholders. The part of the assessment due to the shareholders shall be paid to them annually, irrespective of the amount of profit or loss on the management of the canal or of the amount of any arrears of income that may be outstanding.

(*b*). Two annas per ghumáo shall be paid to the manager.

The rates payable under (*a*) and (*b*) are fixed, and will not vary with alterations made in the total amount of the occupier's rate under Rule 1, but no rates shall be claimable in respect of any area on which the assessment has been wholly remitted under Rule 5 ; in the case of partial remissions under that rule the rates fixed under (*a*) and (*b*) shall be liable to a *pro rata* reduction.

(*c*). The balance, after deducting 3 per cent. for lambardárs and 2 per cent. for patwárís, shall be credited to the Provincial revenue : Provided that the allowances due to lambardárs and patwárís shall only be calculated on the share of the receipts falling to Government. Sums deducted for patwárís under this rule shall not be credited to the District Patwári Fund, but shall be paid to the patwárís of the circles in which occupier's rate has been collected on the scale of 2 per cent. on the collection of each circle to the patwári of that circle.

(13) The whole question of *Casual Students,* and the fees to be charged;

(14) The tenure of College Scholarships under Article 238, in relation to the periods for which they can be drawn under Article 200;

(15) A proposal to omit the proviso to Article 263, limiting Middle School Scholarships to girls in indigent circumstances;

(16) Revision of the conditions required for admission to the Junior Vernacular and Zamíndári Certificate Examination, with the question whether the Junior Vernacular Certificate is sufficient for admission to the Senior Vernacular Certificate Examination;

(17) The age fixed in Article 152 for Female Teachers' Certificates;

(18) The offices for which, under Article 135, the holders of different grades of Teachers' Certificates are eligible;

(19) The award of a certificate to those who pass by the 5th Standard in Zamíndári Schools;

(20) The insertion in the Code of the following rule:—

"A candidate for the Punjab Middle School or Entrance Examination, who has been disqualified by the University from passing the examination, and from appearing at any subsequent examination of the University during a certain period, shall not be permitted, during that period, to attend any Government, Board, or Aided School or College, or any other Unaided School or College that is open to inspection;"

(21) A *vacation* in Village Primary Schools; and, if approved, of what length?

(22) Whether an *Order Book,* separate from the present Log Book, is desirable, and whether the present Log Book is suitable.

3. The decision of the Conference regarding Question (1)—

That it is not desirable to hold a special examination for Middle School Scholarships—

is approved by the Lieutenant-Governor. His Honor understands that the examination, as at present conducted, gives general satisfaction.

4. Regarding Question (2), whilst the Conference were of opinion that it is not desirable to introduce Fractional Multiplication Tables into ordinary Primary Schools, or to give more attention to Mental Arithmetic on native methods, it was resolved—

That Inspecting Officers may examine scholars in Mental Arithmetic suited to their respective Standards, and that a note to this effect be added to the Code.

This decision is approved by the Lieutenant-Governor, and the necessary addition will be made to the Code.

5. At present, the elementary courses in Geography are not so framed as to include *definitions*; and on this, under Question (3), the Conference ruled—

That a knowledge of Geographical Terms be required in the Primary Classes, so as to secure the introduction of Illustrative Charts into Primary Schools.

His Honor the Lieutenant-Governor approves of this decision, as its aim is to familiarise the scholars from the beginning with things instead of mere words.

6. A Sub-Committee was appointed to consider Question (4) regarding the courses in Geography for Primary and Middle Schools, the report of which, as given below, was accepted by the Conference :—

Lower Primary—2nd Class.

The Sub-Committee is of opinion that, in order to introduce the teaching of Geography in an intelligent manner, it is necessary that some very elementary course should be laid down for the 2nd Primary Class; and that this course should be clearly defined by the preparation of a small text-book in the form of a Reader, giving—

(1) a knowledge of the cardinal points of the compass;

(2) the meaning and use of a map;

(3) explanation of simple geographical terms by reference to charts; formal definitions not being required.

Lower Primary—3rd Class.

The Sub-Committee is of opinion that the present course is open to objection solely because it is not clearly defined what amount of information is to be demanded under each head, and that if the course could be more definitely laid down, this liability to objection would be removed. The Sub-Committee does not see its way to recommend that the course should be reduced by the omission of any of its parts; but is convinced that so long as it requires the use of all the present text-books it is liable to be made excessive. The Sub-Committee, therefore, recommends that, in addition to the District Geographical Reader and the Geography of the Punjab at present in use, a small manual of five or six pages, with a map attached, giving only the most outstanding features of Indian Geography, would be sufficient.

The requirement in the Scheme of Studies should read as follows :—

A general knowledge of the Geography of the Punjab, and more especially of the District in which the school is situated, along with a knowledge of the Geography of India as contained in the book proposed.

Upper Primary—4th Class.

The requirement should be—

The Geography of India as in the existing text-book, the general Geography of Asia, and revision of the Geography of the Punjab.

The Miftah-ul-Arz being admittedly unsatisfactory, a new text-book of the Geography of Asia should be prepared, and in this some of the elements of Physical Geography should be introduced.

Upper Primary—5th Class.

The requirement should be—

The Outlines of the Geography of the World, both physical and political, the Geography of Asia, and revision of the Geography of India and the Punjab.

A small manual of the Geography of the World should be prepared, containing additional elements of Physical Geography.

The Sub-Committee further recommends that the courses for Vernacular and Anglo-Vernacular Schools should be the same throughout.

Middle Department.

The Sub-Committee recommends the preparation of a complete text-book, which should comprise the courses, both in General and Physical Geography, for all three classes of the Middle Department. This would obviate the necessity for a separate text-book of Physical Geography.

1*st Class.*—The requirement should be—

Europe as in the new text-book, with the amount of Physical Geography prescribed for this class, and revision of the Geography of India and the Punjab.

2*nd Class.*—The requirement should be—

Africa and America as in the new text-book, with the amount of Physical Geography prescribed for this class, and revision of Asia.

3*rd Class.*—The whole of the new text-book.

In the opinion of the Sub-Committee, new wall maps of the districts and of the Punjab should be prepared, with direct reference to the text-books prescribed, as at present they are overcrowded with the names of unimportant places. It is also recommended that a small map of the Punjab, giving only the names of the chief places referred to in the existing Geography of the Punjab, should be attached to that book similar to those in the District Geographical Readers.

The recommendations made as to courses, text-books, and maps have the approval of the Lieutenant-Governor. The necessary amendments will be made in the Scheme of Studies; and the Director of Public Instruction will be required to move the Text-Book Committee regarding the preparation of the new books and maps.

7. The decisions of the Conference regarding Questions (5) to (9) are also approved by His Honor the Lieutenant-Governor. These decisions were—

(1). *Question* (5)—

That, on the next revision of the Persian courses for the 2nd and 3rd Middle School Classes, the text-books be reduced to about 200 pages each, and that, before the revision of the text-books, more than 200 pages be not required from these classes, these pages being proportionately divided between the prose and poetry portions.

(2). *Question* (6)—

That the percentage of marks required to pass the Primary Examinations should not be lowered.

(3). *Question* (7)—

That the following addition be made to Article 185 of the Code :—

" No entrance fee will be charged for admission to Primary Schools or Departments except in the case of scholars who have absented themselves without leave seeking re-admission to Anglo-Vernacular Primary Schools or Departments, including their Branches, when a fee of 4 annas will be charged."

(4). *Question* (8)—

That duplicate certificates for passing the Upper Primary Examination may be issued, at the discretion of Inspectors of Schools, on the payment of a fee of 4 annas.

(5). *Question* (9)—

That scholars of the *Junior* Special Class be charged fees at the rates fixed for the 5th Primary Class, and those of the *Senior* Special Class at the rates fixed for the 2nd Middle Class.

8. The opinion of the Conference on Question (10) was against the levy of fees in Government and Board Colleges *during the holidays;* and it was proposed further, and carried—

That fees be not taken in Aided Colleges during vacation, and that, in all Colleges, full fees be charged for broken months.

The Lieutenant-Governor is disposed to leave Aided Colleges as heretofore free to levy fees for the holidays, and for broken months, as they may prefer. With regard to Government and Board Colleges, His Honor observes that the fees were fixed originally by the term, although payable at monthly rates; and he has directed, to make the matter clear, and to meet the views of the Conference as to the levy of full fees for broken months, that the following note be added to Article 176 :—

Fees are levied for *three* months (May—July) in the Summer Term, and for *seven* months (October—April) in the Winter Term.

9. Regarding Question (11) the Conference passed the following resolution—

That, as the number of *optional* subjects in the Middle School and Entrance Examinations has been reduced, the grants for a pass be raised as follows—

In the Middle School Examination, in each optional subject, from Rs. 2 to Rs. 3.

In the Entrance Examination, in a Vernacular language, from Rs. 3 to Rs. 4 ; and in every other optional subject, from Rs. 6 to Rs. 9.

The Lieutenant-Governor agrees to the enhanced rates proposed, with the exception of the Rs. 9 rate for ordinary optional subjects in the Entrance Examination. This, it is considered, should not exceed Rs. 6, as at present, that being the average fixed for a compulsory subject.

10. The recommendation of the Conference on Question (12) is approved, and will be given effect to by a note to Article 70 (*c*), as follows :—

A scholar of the High or Middle Department, who earns a half grant for passing in *three* of the compulsory subjects only, in one year, may earn the remaining half grant, and grants for optional subjects, if he passes in all the compulsory subjects, in the year following.

11. Question (13) regarding *Casual* Students was referred to a Sub-Committee; and the following were the ultimate conclusions of the Conference :—

(1). That Article 443 be accepted as the definition of a *casual* student, and that it be inserted in the Chapter of *Definitions and Classification* in the Code ;

(2) That as regards discipline, *casual* students are subject to the same College rules as other students, and that this be made applicable to all Colleges, and added to the Miscellaneous Rules of the Code.

(3) That no *casual* students be allowed in any Government, Board, or Aided School, or any school subject to inspection.

The Lieutenant-Governor accepts these decisions, and would further qualify Article 443, which provides for the admission of casual students to Colleges, by adding between the words " are allowed " and " to attend," *with the sanction of the Principal.*

12. Regarding Question (14) the Conference ruled—

(1) That *Entrance* and *Intermediate* Scholarships should be made payable for the full period of two years, and that a note to that effect should be inserted under Article 200 of the Code ;

(2) That *Bachelors'* Scholarships be made tenable only for the period during which the holder is actually borne on the rolls of the College, and studying for the Masters' Degree ;

(3) That students be not charged fees for the month intervening between the Intermediate Examination and the opening of the 3rd Year Class.

These decisions are approved, with the exception that the Lieutenant-Governor, under (3), would leave it optional with Aided Colleges to charge or not charge fees as they may prefer. The necessary alterations will be made in the Code.

13. The proposal of the Conference regarding Question (15), making girls, other than those in indigent circumstances, eligible for Middle School Scholarships, is accepted; and Article 263 will be altered accordingly. It appears that both the number of scholarships tenable in Girls' Schools, and the rates fixed, require some revision ; and the subject will be referred to the next Conference.

14. Questions (16) and (18) regarding Teachers' Certificates, and the offices for which the holders are eligible, were referred to a Sub-Committee, on whose report the Conference adopted the following proposals :—

(1) That the conditions for admission to the Junior Vernacular Examination should be so revised as to enable students who pass the Anglo-Vernacular Middle School Examination to present themselves as candidates ;

(2) That both Vernacular and Anglo-Vernacular candidates should be admitted to Normal Schools, and to the Certificate Examination on the same footing, and undergo examination in the subjects specified in Article 171, with the proviso that Mathematics should be a compulsory subject for the Vernacular candidates, and optional for the Anglo-Vernacular ;

(3) That Anglo-Vernacular candidates after passing the Certificate Examination without Mathematics should not be eligible for work in any school higher than a Primary School, until they pass the examination in that subject;

(4) That from no district shall more than one-half of the students sent up to Normal Schools be Anglo-Vernacular candidates;

(5) That at present no proposal should be made for the revision of the conditions of admission to the Zamíndári Certificate Examination;

(6) That a candidate who passes the Junior Vernacular Certificate Examination be eligible, as at present, for the Senior Vernacular Certificate Examination;

(7) That the Note to Article 169, *viz.*, "Any person holding a Junior Vernacular Certificate may be admitted to this examination," should be struck out;

(8) That no change should be made in the offices for which holders of Senior Certificates are eligible, but that the conditions under which a Provisional Senior Second Grade Certificate is made permanent may be so modified that the Certificate may be permanent as regards the holder's fitness for the Headmastership of a Middle School, while still continuing provisional for a further period as regards the holder's fitness for an Assistant Teachership in a High Department, or *vice versâ*;

(9) That no change be made in the offices for which holders of Junior Certificates are eligible, but that as teachers holding Junior Second Grade Anglo-Vernacular Certificates may be considered competent to teach in the Middle Department of an Anglo-Vernacular School, some provision should be made in the Code for their being so employed for the purposes of a staff grant.

These recommendations are approved by the Lieutenant-Governor, who desires, however, to substitute for the precaution contained in proposition (4), the following note to Article 272:—

> These stipends are intended for students who have passed the Vernacular Middle School Examination; and they will be awarded to those who have passed the Anglo-Vernacular Examination only in exceptional cases, and with the sanction of the Director.

The provision required by proposition (9) will be met by a note to Article 79, to the following effect:—

> This concession will apply to teachers holding Junior Second Grade Anglo-Vernacular Certificates who may be employed in the Middle Department, when their work is approved by the Inspecting Officer.

15. The decisions of the Conference with regard to Questions (17), (19) and (21), with which the Lieutenant-Governor concurs, were the following:—

(1). *Question* (17), regarding the age fixed for admission to the examination for Female Teachers' Certificates.

That the age condition imposed in Article 152 of the Code be reduced to 17 years.

(2). *Question* (19)—

That certificates be awarded to boys who pass by the 5th Standard of Zamíndári Schools, such certificates to be distinct in type and form from those given for passing the ordinary Upper Primary Examination.

It was also considered that the certificates should be simple in form and of attractive appearance.

3). *Question* (21)—

That a vacation of two weeks be given in Village Primary Schools during the rabi harvest, the exact time being fixed by the Local Bodies.

16. Regarding Question (20), the Conference resolved that the Punjab University be moved to adopt the following rule:—

"A candidate for the Punjab Middle School or Extrance Examination, who has been disqualified by the University from passing the examination, and from appearing at any subsequent examination of the University, during a certain period, shall not be allowed to appear in a higher examination within a period greater by two years than the period which, by the University regulations, must elapse between the examination in which the candidate was disqualified and the higher examination."

His Honor the Lieutenant-Governor accepts this suggestion as likely, in some degree, to meet the difficulty that had arisen; and the University will be addressed on the subject.

17. With reference to Question (22), the Conference agreed—

(1). That an Order Book, separate from the Log Book, should be prescribed, and that Articles 96 and 97 should be altered accordingly;

(2). That the Log Book in present use is not suitable, and that a blank book of good paper, and well bound, should be substituted.

The decision regarding a separate Order Book is approved; but the Lieutenant-Governor considers that before giving up the present Log Book for a mere blank book, as formerly used, a simplified form of Log Book should be prepared and submitted to the Conference next year.

18. His Honor the Lieutenant-Governor is indebted to the members of the Conference for the care and attention given to the subjects submitted for their consideration; and he desires to convey to them the thanks of the Government for the valuable results of their deliberations.

ORDER.—Ordered, that the Resolution be published in the Gazette in English and the Vernacular, and that copies be supplied to the members of the Conference, to Commissioners and Deputy Commissioners, to Principals of Government, Board and Aided Colleges, and to Managers of Aided Secondary Schools for Natives.

By order of the Hon'ble the Lieutenant-Governor,

J. SIME,

Under-Secretary to Government, Punjab,
Home (Education) Department.

Letter from Government Advocate, Punjab, No. 1258 D.C., dated 17th March 1891.

Subsequent unofficial references to and from Civil Department and Opinion of Government Advocate, *re* the question of liability of Government to be sued in cases where D. P. W. Officers execute Contribution works.

RESOLUTION.—When the Department Public Works undertakes to execute a Contribution work, it does so solely as the Agent of the Principal (Municipal Committee, District Board, individual, &c., as the case may be); and in the case of any litigation it is the Principal and not the Agent who must be sued.

2. The following orders regarding the procedure to be adopted in carrying out "Contribution" works undertaken under P. W. Code, Chapter II, paras. 78—82, must be carefully observed :—

(i). When an officer entrusted with the execution of such work desires to give out on contract a part or the whole, he shall prepare contract documents in the forms prescribed for use in the Public Works Department, but he shall substitute the name of the Principal (Public body or private individual) for whom the work is being done in place of "the Secretary of State" or "Officer acting on his behalf."

(ii). The terms of the proposed contract must then be approved by an Officer of the Public Works Department who would be competent to complete such contract if it were for Government work. (Thus if the amount involved is not more than Rs. 500 the approval of the Executive Engineer is sufficient; if the amount involved is greater than Rs. 500, but not more than Rs. 20,000, the approval of the Superintending Engineer must be obtained; and if the sum is greater than Rs. 20,000, the matter must be referred for approval to the Chief Engineer).

iii). Where departmental approval has been obtained, the Officer in charge of the work shall first obtain the signature of the Contractor tendering for the work, (who must be made to understand that Government is not a party to the transaction) and shall then send the documents for completion by the Principal, (Public body or private individual) who is the other contracting party.

(iv). If the other contracting party is a Municipal Committee, attention shall be drawn to Act XIII of 1884, Section 33 (2), whereby no contract whereof the value "exceeds Rs. 500 shall be entered into until it has been sanctioned at a meeting of the Committee," and to Section 34, whereby every Contract whereof the value exceeds Rs 100 in the case of 1st Class Municipalities and Rs. 50 in that of 2nd Class must be in writing and signed by at least one member of the Committee

(v). *To the utmost extent possible in practice*, all contracts should be in writing and the contract documents must be stamped according to law. As regards trifling contracts not reduced to writing local officers must make it clear to the contractor that he is not contracting with Government, and moreover *place on record at the time a written memo.* of their having observed this rule.

3. No suit can legally be brought against Government (*i.e.*, the Secretary of State for India in Council) in respect of Contracts of this nature. Should notice of action be served threatening any such suit, the Head of the Department, whom it will eventually reach as provided in the Civil Suit Rules, should act conformably to Suit Rules No. 37 and 44—46; but the only defence with which he need deal will be that resting on section 230 of Act IX of 1872, *viz.*, that the Government, having merely acted as an Agent, is not liable to be sued.

4. If the Principal (Public body or private individual) for whom the work is being performed is sued, it is the duty of the officer in charge of the work to afford every assistance possible to the defendants and their legal advisers.

5. In the case of works carried out from funds partly supplied by Government and partly from other sources these rules will not apply where the finished work will be considered the property of Government. On the other hand the fact that Government may make a direct or indirect contribution towards a work executed for a Public Body will not interfere with the rules now promulgated.

ORDER.—Ordered that a copy of the above Resolution be forwarded to all Commissioners for information; to all Deputy Commissioners for information and communication to Municipal Committees and District Boards; and to all Superintending Engineers and Executive Engineers, Punjab (General Branch), Public Works Department, for information and guidance.

Also that the Resolution be published in the *Punjab Government Gazette* for general information.

(i). Circular Resolution of this Department, No. 8-F., dated 24th June 1890, provisionally promulgating a revised Prospectus of the Forest School, with two appendices.

(ii). Circular Resolution of this Department, No. 17-F., dated 29th July 1891, prescribing rules to regulate the appointment of Extra-Assistant Conservators of Forests.

RESOLUTION.—The Governor-General in Council is pleased to direct that the revised Prospectus of the Forest School, with its two appendices, which was provisionally issued under Circular No. 8-F., dated 24th June 1890, be cancelled, and that the "Rules to regulate appointments and promotions in the Provincial Forest Service" appended to this Resolution be substituted therefor and published for general information.

These Rules incorporate the provisions of Circulars No. 24-F. of 22nd October 1888 and No. 16-F. of 15th June 1889, and, in so far as they concern the public, those of Circular No. 3-F. of 3rd March 1890. In their present consolidated form they contain all points of interest or importance to persons intending to enter the Provincial Forest Service.

2. Subsequent to the issue of Circular No. 3-F., dated the 3rd March 1890, which was published for the information of Local Governments and for the instruction of the Director of the Forest School and of the Comptroller and Auditor-General, it has been finally decided that the attempt to establish a separate course of training for Sub-Assistant (now Extra-Assistant) Conservators should be given up, and the estimate of allowances required by students during the course of instruction has been modified accordingly.

3. Since then it has also been resolved that nominations to Sub-Assistant Conservatorships shall cease, but that, on the other hand, Local Governments shall be empowered to assist selected students during their educational course by a stipend, not exceeding Rs. 50 per mensem, on the understanding that they will, if they pass the examination, enter the service as Rangers.

No alteration has taken place as regards the power of Local Governments to depute to the School duly qualified officers of the Subordinate Staff, or to appoint unpassed candidates to that Staff.

4. Officers of the Subordinate Staff who may be deputed to the School for instruction will draw the pay and travelling allowance of their grade, provided that they shall not receive less than the sum shown in Appendix II to the Rules as the minimum estimate of necessary expenditure applicable to their case. Rangers deputed to the School will draw the pay and allowances of their grade.

Selected students who have been granted a stipend will be required to meet therefrom all charges detailed in Appendix II. Advances for uniform, books and camping outfit, up to the amounts shown in Appendix II, under heads (ii), (iii) and (iv) respectively, may be made to students in Government service and to those receiving stipends from Local Governments, and will be recovered by monthly payments.

5. Officers deputed to the School are entitled to the travelling allowance of their grade, both to join the School and to rejoin their appointments.

On passing the final examination, all students who may be appointed to the Government service as Rangers and Foresters will be entitled to the travelling allowance of their grade in order to join their appointments.

6. The salaries and allowances of officers deputed to the School, and the stipends which Local Governments may have granted, will be paid by the Director; but he will not receive money or keep accounts for private students.

7. The various payments detailed in Appendix II will be made to the students by the Director and charged in his accounts as final payments, being at the same time debited by transfer to the Provinces or Circles in which the students' accounts are kept. In the case of item (iii) (cost of books and instruments), the money will be charged in the accounts without passing into the students' hands. As regards items (i), (ii), (iii) and (iv), the Conservator, after making due allowance for the adjustment of items (ii), (iii) and (iv), will inform the Director of the rate of monthly subsistence allowance to be paid to each student. This should not be less than the amount stated opposite item (i) in Appendix II. As regards items (v) and (vi), the students will receive their travelling allowances as they fall due; but before the commencement of the hill tour, about the middle of April in each year, they may, if they require it, and if the Director sees no objection, receive their travelling allowances for April and May in advance. Such advances, however, will not, as a general rule, be made to students who receive stipends higher than those stated in the last item of Appendix II. The amount of these travelling allowances, which can be calculated beforehand, will be charged as final payments in the Director's accounts, subject of course to subsequent audit of the bills in which the amount advanced is to be shown. Similarly, travelling allowances for the month of January in the second year may, at the discretion of the Director, be paid in advance before the commencement of the Punjab tour, and charged as a final payment in the Director's accounts. Except as herein provided, no advances will be made to students already in Government service or receiving stipends from Local Governments, and ledger accounts cannot be kept for them in the Director's office.

8. A travelling allowance bill on account of the student's journey to join the School will be forwarded by the Director to the Conservator of Forests, who will inform the Director of the sum which, after re-payment of advances, if any, may be payable to the student and be entered as a final payment in the Director's accounts by transfer to the Province or Circle concerned. Conservators should not make advances which cannot be covered by the amount of the bills to be subsequently drawn, as such excessive advances throw the students into debt—a result which it is one of the principal objects of the present arrangements to avoid. Whenever, owing to unforeseen circumstances, it may become necessary to make deductions from the student's subsistence allowance, these will be carried out by the Conservator, who will inform the Director of any change that may thereby be caused in the rate of the monthly allowance. Such deductions should never reduce the student's subsistence allowance below the amount stated opposite item (i) in Appendix II.

9. To facilitate the calculation of the travelling allowances payable for the journey to the School, it may be mentioned that Dehra Dun is 42 miles by road from Saharanpur, a station on the North-Western Railway, and that Government servants drawing from Rs. 11 to Rs. 100 per mensem travel by "intermediate class" on the up-country lines above Khandwa on the Rajputana-Malwa Railway and above Jubbulpore on the East Indian Railway. The cost of an "ekka" from Saharanpur to Dehra is Rs. 3-10.

ORDER.—Ordered, that a copy of this Resolution and of the new Rules referred to be forwarded, for information and guidance, to the Government of Madras, the Local Governments and Administrations noted in the margin, the Inspector-General of Forests, and the Comptroller and Auditor-General.

Ordered also, that a copy be forwarded to the Foreign Department for communication to the Agent to the Governor-General in Baluchistan.

I.—THE FOREST SERVICE.

The Forest Service of India is composed as follows:—

(*a*) The Imperial Service.

(*b*) The Provincial Service.

(*c*) The Subordinate Service.

(a) The Imperial Service.

The Imperial Forest Service is recruited solely by officers directly appointed by the Secretary of State for India.

(b) The Provincial Service.

The Provincial Forest Service consists of—

(*a*) Foresters who have obtained the Dehra Dun Forest School Certificate, Lower Standard.

(*b*) Forest Rangers.

(*c*) Extra-Assistant Conservators.

(*d*) Extra-Deputy Conservators.

(c) The Subordinate Service.

The Subordinate Forest Service, consisting of Foresters, Forest Guards, and other subordinate officials, is recruited from men appointed by Conservators or by Divisional Forest Officers under the sanction of Section 40 of the Forest Code, and who do not pass through the Dehra Dun Forest School.

II.—THE PROVINCIAL FOREST SERVICE.

The Provincial Forest Service can in future only be entered through the Dehra Dun Forest School.

III.—ADMISSION RULES.

The rules for admission to the Forest School are as follows:—

1. There are two courses—one in English (the upper class), and a second in Hindustani (the lower class).

The former prepares students for the certificate in forestry by the higher standard; the latter for the certificate in forestry by the lower standard.

2. Application for admission to the School may be made in the first instance either to the Director, or to Conservators of Forests direct or through Divisional Forest Officers. Candidates for admission must not be less than 18 nor more than 25 years of age: exceptions to this rule will require the previous sanction of the Government of India. Each candidate must furnish a certificate of sound health, and of good vision and hearing from the Civil Surgeon of the station nearest to his place of residence.

3. It is the duty of the Director or the Conservator who receives the application to satisfy himself that the candidate is of good moral character and active habits; also that he possesses fair powers of observation, sense of locality, and such other qualifications as are necessary for an officer of the Forest Department.

Admission to the English Course.

4. Candidates* who are accepted under Rules 2 and 3 for the English Course must, before admission to the School, pass an Entrance Examination in the following subjects, *viz.*—

English—composition and conversation.

Arithmetic.

Algebra—up to and including quadratic equations.

Elements of Euclid.

Mensuration—lengths, areas, and volumes.

* Except those of Burmese, Shan, or Karen extraction, who, as a temporary measure during the years 1891 and 1892, will be admitted into the School after passing such Entrance Examination as a Conservator of Forests in Burma may deem sufficient.

5. This examination will be held before an officer of the School or before such officers of the Educational Department as the Local Governments may appoint for that purpose. The examination will be held either at the Forest School, or at such other convenient educational centres as the Local Governments may direct.

6. Conservators of Forests, including the Forest Officers of Coorg and Ajmere, are required to report to Local Governments by the 1st of January in each year the number of approved applicants, and submit proposals regarding the place or places at which the examination should be held.

The officers appointed by the Local Government to conduct the examinations should despatch to the Director on the 15th January in each year an application for the number of sets of examination papers to be sent to them. The examination papers will be forwarded from the Director's office, under sealed covers, not later than the 15th of the following month.

The examinations will be held simultaneously throughout India on three successive days about the 1st March, the precise dates being fixed by the Director at the time that the examination papers are sent out. Examinations held on dates other than those thus fixed by him will be treated as invalid. The candidates' written answers will, after countersignature (with date) by the officer presiding at the examination, be returned in a sealed cover to the Director of the School. The Director will subsequently inform Conservators of the result of the examination.

7. The Local Government may, under such rules as it may lay down, require that there be selected from the list of passed applicants such number as it may deem desirable to admit into the Provincial Forest Department at the end of the School course. Applicants so selected will have a preferential claim to be appointed to the Department.

8. Local Governments may grant to special candidates while pursuing their studies in the upper class at the School, who are not already in receipt of any Government pay, an allowance not exceeding Rs. 50 a month under the conditions prescribed in Rule 13. Students will, on passing out of the School by the higher standard, be eligible for appointment as Rangers under Section 34 of the Forest Code, and can then be promoted to the class of Extra-Assistant Conservators under the special provisions of Rule 2 (*b*) in VI *infra*

9. Local Governments may depute to the Forest School, in order to attend the English Course, officers who have served in the Subordinate Service for a period of not less than one full working season, provided that they have passed the examination prescribed in Rules 4 and 5. The age of all such officers shall be less than 25 years: an exception to this rule will require the previous sanction of the Government of India.

10. Local Governments may also depute Rangers to the School in order to qualify themselves for further promotion (*a*) in the class of Rangers, or (*b*) to that of Extra-Assistant Conservators. Such officials may be above 25 years of age, and need pass no qualifying examination, but will require to hold a certificate from the Conservator of Forests, under whom they are serving, that they possess sufficient general education and ability to enable them to profit by the English Course of instruction at the School.

Admission to the Hindustani Course.

11. Candidates for the Hindustani Course may be admitted as prescribed in the case of the English Course in Rules 2 and 3; but, in lieu of passing the Entrance Examination laid down in Rule 4, they must furnish a certificate of having passed the Middle Class Examination in the North-Western Provinces and Oudh, or an equivalent standard in another Province, as well as a certificate that they possess a competent knowledge of Urdu or Hindi.

12. Local Governments may depute to the Forest School, in order to attend the Hindustani Course, officers who have served in the Subordinate Service for a period of not less than one full working season, provided that they have qualified as prescribed in the preceding rule for the admission of students of that class. The age of all such officers shall be less than 25 years: an exception to this rule will require the previous sanction of the Government of India.

13. Persons who may enter the Subordinate Forest Service with a view to being deputed for instruction to the Forest School at Dehra, as well as those who may be granted a Government stipend under Rule 8, shall be bound down by a formally executed Agreement—the sureties for the fulfilment of which should be men of some position and means—to continue in the Government Forest Service for a period of not less than five years after passing out of the Forest School, and on such rates of pay as may be in accordance with the existing organization of the Department. A breach of this condition, otherwise than with the consent of the Government of India, will render the offender and his sureties liable for the refund to Government of the entire cost of his education at

he Forest School. The Agreement and Security Bond shall be in the appended forms Appendix I, and must be executed before the student is admitted to the School. The Agreement will be signed by the student and, if he is a minor, by his father or guardian also; the Bond by the student and two sureties.

14. The obtaining of either of the certificates at the School will not, otherwise than as provided under Rule 7, be held to constitute a claim to Government service, although when vacancies in the service occur, due consideration may be given to the fact that certificates have been obtained.

15. Students must supply their own note-books and stationery. Books from the Book Depôt will be supplied to them on cash payment only. Breakages and damages of School property must be paid for at once. As security for the due fulfilment of this condition, each student, not already in the service of Government, is required on entering the School to deposit a sum of Rs. 50 with the Director, the balance of which (if any) will be returned to him when he leaves. Students must, during their stay at the School, defray their own expenses, including the cost of travelling. Travelling allowances are granted to students already in the service of Government.

16. Candidates from Native States must apply, through the Darbar, either to the Director or to a Conservator of Forests. The conditions for their admission are similar to those laid down for other students. Native States sending students to the School shall, before the beginning of each term, deposit with the Director a sum equivalent to the estimated cost of the students' living at the School for that term as stated in Rule 5 under IV, *infra*, as well as the security deposit of Rs. 50 provided for in the preceding rule. Remittances for students from Native States must be made by drafts payable to the students and forwarded to them through the Director.

17. Previous to receiving into the School any person who is not already in Government service, or in receipt of a stipend from Government or from a Native State, the Director shall satisfy himself that the candidate or his friends are able and willing to provide him with funds up to the amounts and at the times laid down in the estimate appended (Appendix II). A student who fails in this respect to satisfy the Director shall not be allowed to remain at the School.

IV.—GENERAL RULES.

1. Candidates admitted to the School must join at Dehra Dun on the 25th June next after the date of their passing the Entrance Examination.

2. The courses of training extend over 21 months, the time being spent as follows:—

Students who have completed their course leave the School at the end of March; but any student who has failed to obtain his certificate may, at the discretion of the Director and, in the case of students already in the service of, or in receipt of a stipend from, Government, with the sanction of the Local Government, or, in the case of students from Native States, of the Darbar, be retained to complete another full year's course of instruction. But during the course of instruction no examination for the final certificates will be held. Students who have failed to obtain the certificate by the Higher Standard by ten per cent. or less of the necessary marks may, at the discretion of the Director, be granted a Certificate in Forestry by the Lower Standard. Conservators of Forests—the students selected or deputed by whom are about to undergo their final examinations—are required to inform the Director, before the end of February in each year, as to the place to which each student on leaving the School is required to go, and as to the amount of the advance, if any, which may be given to enable him to reach it.

5. The average monthly cost of living at the School is calculated to be as follows, *viz.*—

For students living in the Native style ... ... Rs. 22 to Rs. 28.

The above figures include the cost of food, ordinary clothes, uniform, rent, books and instruments. The expenses of travelling and camping during the entire course of 21 months

(2) Reprimand by the Director or the Deputy Director at any time.

The proceedings of the meeting will be reported to the Conservator or the Native State deputing the student; and, if the Meeting so decides, a note of them will be made on his final certificate.

(4) The Director, acting with the consensus of the Meeting referred to under (3), has power to inflict, in addition, a fine to the extent of one-third of the salary or allowances of the student for a period not exceeding three months.

(5) The Director, acting with the consensus of a full Meeting of the School Officers presided over by himself, has power to dismiss any student for misconduct; and a student thus dismissed cannot be re-admitted to the School.

After the close of the Darbár the following address was read by Mr. E. Nicholl, Secretary to the Municipal Committee, Amritsar, on behalf of the citizens of Amritsar :—

YOUR HONOR AND LADY LYALL.—We, the Members of the Municipal Committee of Amritsar and representatives of its citizens, offer you and Lady Lyall a hearty welcome to our city, and beg leave to tender to Your Honor an expression of our gratitude for so graciously fulfilling the desire expressed by us on the occasion of Your Honor's last visit in April 1888 that Your Honor would favour us with another and a longer visit.

On that occasion we informed Your Honor that the Municipality had in contemplation the carrying out of certain important public objects commemorative of the Jubilee of of Her Most Gracious Majesty the Queen-Empress, and we expressed a hope that Your Honor would be pleased to encourage us by assisting at the opening functions.

The objects were briefly, the construction of a grain market and a hospital. The former was completed and opened, so as to be ready to receive the grain of the plentiful harvest which was vouchsafed to us this year: the latter has, owing to causes which need not be alluded to here, only reached the initial practical part of its construction, *viz.*, the laying of its foundation stone. It is indeed gratifying to us, and we accept it as full compensation for the delay that has occurred, that the foundation stone is to-day to be laid by Lady Lyall. In so graciously consenting to perform this duty Lady Lyall has placed us under a life-long obligation for which we cannot adequately thank her.

Before asking Lady Lyall to lay the foundation stone we wish to take this opportunity of mentioning a few important matters in which doubtless Your Honor will take an interest.

The subject of sanitation has not, we would beg to assure Your Honor, been neglected by us. During the period of Your Honor's term of office much has been done to improve the city and its surroundings; we would more especially mention the filling in of the city ditch, a work that took nearly eight years to complete, and improved drainage. There is much yet to be done. We are now about to turn our attention to the provision of a supply of pure water, and for this work we may with confidence count upon the help and consideration of Government.

We beg to assure Your Honor that nothing shall be wanting on our part to further any scheme which may be approved by Government.

During the last few years the education of the youth of our city has received much consideration, and we are glad to be able to inform you that the city now possesses, besides three High Schools for boys, with several branches, a Normal School and several branch schools for girls, a college where our maturer scholars may put the coping stone on the liberal education which they have received.

To still further promote this cause on which the future prosperity of so many depend, we would acquaint you with the fact that we have by the grant of a piece of land enabled the Hindu Sabha to construct a grain market by subscription, the income from which will be devoted to the maintenance of a High School.

To the Muhammadans we intend to grant the buildings at present used as a hospital when they are vacated.

By these measures we hope to enable the people to carry out the policy of Government by educating their children independently of the direct help of Government.

We claim for the Amritsar District a position second to none other in the Province. It affords one of the principal recruiting-grounds of the Native Army, and its city is a large commercial centre; we would therefore commend to the consideration of Your Honor the project for connecting Amritsar with Tarn Táran, and ultimately with Hariki in the Lahore District, by means of a cheap feeder line of railway. Tarn Táran being situated in the *Manja* is the centre of a large grain trade; and its Temple attracts thousands to the monthly and six-monthly fairs held there.

We take this opportunity of once more expressing our heart-felt thanks for the blessings of peace, prosperity and liberty which we enjoy under the benign and enlightened rule of the British Government, and declare that the people of Amritsar will yield to none in loyalty to the Throne of Her Most Gracious Majesty the Queen-Empress of India.

Owing to the movement that was lately set on foot by the influence of the consort of our late highly esteemed Viceroy much has been done to ameliorate the condition of the weaker members of our vast community. In the developement of that movement and in all kindred schemes for the benefit of the sick and suffering, Lady Lyall has in this Province

played a leading part. We feel assured that Lady Lyall herself will derive no small satisfaction from the association of her name with the beneficent institution of which she has so kindly consented to lay the foundation stone.

The small trowel with which the interesting ceremony will be performed will, we hope in years to come, remind Lady Lyall of the important part she played in furthering a work that had for its object the care and comfort of suffering humanity.

This may probably be the last occasion on which we may meet Your Honor in Darbár; we would therefore take the opportunity of returning our thanks for the many good works that have been carried out in the Province since Your Honor's assumption of the office of Lieutenant-Governor. We have in all matters affecting the peace and welfare of the people whom we represent received at Your Honor's hands kind consideration, we may therefore be pardoned for repeating what we said in a previous address, that we have always recognized in Your Honor "an old friend who has spent the best years of his life amongst us," and as one who will always cherish the memory of his connection with and sojourn amongst us.

We pray to the ALMIGHTY that He may be pleased to endow Your Honor and Lady Lyall with all the blessings of a long and happy life.

On the conclusion of the address His Honor made the following reply:—

I notice with much pleasure your expressions of loyalty to the Throne of Her Most Gracious Majesty the Queen-Empress. I heartily thank you for the very cordial welcome which you and the citizens of Amritsar have given to Lady Lyall and myself on the occasion of our present visit. I served at Amritsar for a time in 1862-63, nearly 30 years ago, and then acquired a regard and respect for the people of the town and district, which has never since grown less. I am about, as you remind me, to resign office and leave the Punjab, but, absent or present, I shall always feel a warm interest in the prosperity of Amritsar. My pleasure in being able to pay you this visit was much increased by His Excellency the Viceroy kindly consenting to honor your city by making a short stay in my camp here. Amritsar is the largest city in the Punjab proper, or Land of the Five Rivers, and both city and district are inhabited by a manly and high-spirited population, energetic alike in war, agriculture and commerce, and loyal to the Government. His Excellency the Viceroy was therefore glad to accept my invitation to see something of the city and its inhabitants, and as Lieutenant-Governor of the Province I was proud to bring them to his notice. I visited yesterday the grain market which you mention. If you can arrange to make it a bonded-warehouse as well as a market, I have no doubt that it will be a great success and a benefit to your trade. This and the new hospital about to be founded will be worthy memorials of the Jubilee of Her Most Gracious Majesty the Queen-Empress. They will also, as you mention, serve the cause of education; for the rents of the grain market will form an endowment for a Hindu High School, and the old hospital a school-house for the Muhammadan School. I am glad to be able to agree that the Municipality of Amritsar has always shown much interest in education, and has been more liberal in the matter than other cities. I hope, however, that you will go on in the same direction and do more than you have yet done in the education of the girls of your upper classes and in industrial or technical education. In all matters of local self-government the citizens of Amritsar have always shown much intelligence and considerable public spirit. I think this was the first Punjab town in which many years ago a Board of Honorary Magistrates was established, and they have always done excellent work. In respect to sanitation, I have ridden round and through your city, and have seen what has been lately done in the way of filling up the city ditch and the many holes or ponds in which the sewage of the city used to collect. This and the drains and tramway constructed to carry away the liquid and solid sewage cannot fail to improve the health and comfort of the people, and I know that you are preparing to complete what remains to be done in this matter of purifying the air and soil of the city from sewage contamination. But unfortunately this is not all that is wanted. The sanitary condition of the city and its suburbs is deplorable, and must remain so unless much more is done. The census of 1881 shows that your population was then 151,900, and the census of 1891 shows that it has fallen to 136,500, a decrease of 15,400. The annual returns of births and deaths prove clearly that this is due simply to excess of deaths over births. The same tendency was apparent in the period 1870 to 1880. What is the reason of this lamentable and unnatural decline? There can be no doubt that it is due, as the Sanitary Commissioner has reported, to the great prevalence of malarial fever, and that this is mainly, if not entirely, due,—first, to the nearness of the level of the sub-soil water to the surface; and secondly, to impurity of water in the wells from which the present drinking supply is obtained, which impurity is in itself greatly due to nearness of water-level to the surface. The two things to be done, therefore, if the high average death-

rate is to be reduced, if the chances of good health and long life of the inhabitants are to be improved, are,—first to make the soil drier by reducing the level of the sub-soil water; and second, to stop drinking from the wells and bring in a pure supply of drinking water from outside the city. As to the latter measure, the officers of the Public Works Department have at last come to a conclusion as to a scheme. I have been enquiring into its outlines here on the spot, and, so far as I can judge, it seems the best practicable scheme. I hope it will be accepted by the Committee, and will soon come up for orders. I am very glad of the assurance in your address that you will further any scheme approved by Government. You may depend on all help that I can give. You shall have the necessary loan, and I feel able to promise that Government in the Public Works Department will carry out the work gratuitously, making, that is to say, no charge for establishment or even for cost of tools and plant, and, if the Provincial finances permit of it, a grant-in-aid shall also be given. On the other hand, Government will expect the Municipality to impose a water-rate tax, sufficient at least to meet the cost of maintenance, and of a sinking fund to pay off the loan. It would be a retrograde and injurious policy for a commercial city like yours to increase the octroi taxation, and you will want all your present revenues to meet the interest on the loan and other necessary expenses. But when you have got a wholesome supply of drinking water, the nearness of sub-soil water-level to the surface which is no doubt the greatest cause of the malaria will still remain. An attempt must be made to remedy this, and sufficient success ought to be attainable. The attempt will, I think, involve a large restriction of the use of canal water in and around the city. Probably it will be necessary to refuse to supply canal water to tanks in and around the city, unless the tank bottoms are made pakka and water-tight An exception may have to be made to this rule in the case of the five tanks known as the Panjtirah bathing places, but in the case of others it should be absolute. The fact that the sub-soil water-level in the city is higher than outside must be in great part due to the tanks filled with canal water. It will also probably be necessary to prohibit entirely the use of canal water for the cultivation of lands inside the city walls or immediately outside them, and to largely restrict, if not to prohibit entirely, the use of canal water for kharíf crops on lands for some distance round the city except gardens and orchards. Whether this should be done by order of Government in the Canal Department, or whether action should be taken under the Municipal Act, is a question now under my consideration, and as to which the Committee will be presently consulted. The Government will reduce the land revenue if necessary: on the other hand, the Municipality may be bound in equity to give some moderate compensation to the owners of lands from which canal irrigation may for the public good be entirely withdrawn. This is another reason for not throwing too much of the cost of the water-works scheme on your present revenues: in fact I think you would do wisely in applying for a loan to add a sum to meet the probable cost of compensation. Before leaving the subject of sanitation, I wish to congratulate you on having two such officers as Dr. Mulroney, the Civil Surgeon, and Mr. Nicholl, the Secretary of the Committee. Dr. Mulroney is absolutely devoted to his work, and has, I know, a great reputation among you for his skill and kindness. Mr. Nicholl is most able and energetic, and has deservedly great influence with all classes. As to the project of connecting Tarn Táran with Amritsar by a branch railway, all I can say is that I will consider it carefully. At present it seems to me one of the few promising schemes for branch lines which has been brought to my notice. Now, gentlemen, I have said all I have to say, and fear that I have kept you too long, so after again thanking you for your kind welcome and good wishes, I propose that we proceed at once to the ceremony of laying the foundation stone of the Jubilee Hospital which you have asked Lady Lyall to perform.

Those present in Darbár then accompanied the Lieutenant-Governor to the site selected for the Victoria Jubilee Hospital, and the foundation stone of the building was formally laid by Lady Lyall.

RULES ISSUED UNDER ACT VIII OF 1873.

Part III.

ON CONSTRUCTION AND MAINTENANCE OF WORKS.

Section 18.

1. *Orders for construction of works.*—The order which a Divisional Canal Officer may issue under Section 18 shall be in writing, and shall be served on each person concerned or his representative as a civil process through the Deputy Commissioner.

Section 20.

2. *Proceedings of Superintending Canal Officers on reference.*—The Superintending Canal Officer, before confirming or modifying a decision passed by the Divisional Canal Officer under Section 20, shall hear and record any objections made to such decision by the parties interested or their representatives, to whom at least 15 days' notice of the date and of the place at which Superintending Canal Officer will consider the Divisional Canal Officer's decision shall be given.

Section 24.

3. *Proceedings of Deputy Commissioner.*—The notice which the Deputy Commissioner is bound to give to the Canal Officer under Section 24 shall not be less than 14 days.

Section 29.

4. *Opening of new water-courses.*—Water shall not be admitted into any new water-course until all works necessary for the passage across such water-course, of water-courses existing previous to its construction, and of the drainage intercepted by it, and for affording proper communications across it for the convenience of the neighbouring lands, are completed to the satisfaction of the Divisional Canal Officer.

5. *Applications for water.*—All applications for water or for the construction or improvement of water-courses under Part III shall be in the form prescribed in Appendix No. I to these rules.

Part IV.

ON THE SUPPLY OF WATER.

Section 31.

6. *Limit of length of water-courses.*—Water shall not ordinarily be granted to lands where the length of the water-course from its head to its point of contact with the fields exceeds two miles.

7. *Apprehended wastage.*—Applications under Section 16 shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From his decision an appeal may be preferred to the Superintending Canal Officer.

Section 16.

7 *a.* Such applications shall not ordinarily be granted in respect of lands where the available supply of water in the canal, distributary or water-course is already fully utilized.

8. *Sanitary reasons.*—The Divisional Canal Officer shall not engage to grant water for the irrigation of any kharíf crops upon lands within one mile from the outermost houses of any town if such irrigation be objected to by the Municipal Committee (or, if there be no Municipal Committee, by the Deputy Commissioner) and the objection is approved by the Superintending Canal Officer and the Commissioner of the Division. Should these Officers differ in opinion, the question will be referred to Government in the Irrigation Department, whose decision shall be final.

Section 31.

8 *a.* *Prohibition of irrigation in the vicinity of Cantonments.*—When the Local Government has, by a Notification in the official *Gazette*, declared that the irrigation of certain crops within a specified distance from the boundary of a Cantonment ought not, on sanitary grounds, to be permitted, no engagement for a supply of water shall be made against the terms of such prohibition.

Section 31.

9. *Preparation of fields.*—A Divisional Canal Officer may withhold or postpone the issue of water to any cultivator whose fields he may have ascertained by personal inspection (by himself, one of his Assistants, or the Canal Deputy Collector) to be unprepared for irrigation by division into *kiárís* or compartments, not greater than one kanál (5,445 square feet) in area, and by the addition of small water-channels, as is customary in irrigation from wells.

Section 31.

(*a*) When a field is irrigated which has not been so prepared, a charge may be imposed, not exceeding—

Sections 33 and 35.

	Per acre. Rs. A. P.
For Kharíf crops	1 4 0
„ Rabi „	1 2 0

(*b*) Rice-fields and gardens are exempted from the operation of this rule.

(*c*) In each case the Divisional Canal Officer, the Sub-Divisional Canal Officer, or Canal Deputy Collector, must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of this rule.

(*d*) An appeal against the orders of the Divisional Canal Officer may be preferred to the Superintending Canal Officer.

10. *Filling of tanks for watering cattle.*—Tanks may be filled with canal water without charge and without reference to the area irrigated in any village whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

Section 31.

I.—Except as provided in Rule 12 no tank shall be so filled unless exclusively used for domestic purposes and for watering cattle: such tanks are generally in the immediate neighbourhood of villages.

II.—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural sources.

III.—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times and to such extent as the Sub-Divisional Officer approves.

IV.—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

V. Except as provided in Rule 12 every tank so filled shall be used exclusively for domestic purposes or for watering cattle, and in the event of any breach of the foregoing regulations by any person for whose benefit the tank has been so filled, or in the event of any such person using any tank so filled otherwise than for domestic purposes or for watering cattle (except as provided in rule 12), the privilege by this rule afforded may, in addition to any penalty which may be incurred under the Act, be suspended for 12 months by order of the Divisional Canal Officer, passed on a regular proceeding and enquiry in each case; from his order an appeal may be preferred to the Deputy Commissioner.

11. *Contracts.*—The Divisional Canal Officer, with the previous sanction of Superintending Canal Officer, is empowered to make contracts for the supply of canal water for purposes other than irrigation, not specified in schedule of rates, for any term not exceeding one year. For terms exceeding one year the previous sanction of the Local Government shall be necessary.

12. *Charges for water used for purposes other than irrigation.*—Tanks may be filled with canal water for purposes other than those stated in clause I. of rule 10: such water will be charged for at rates and subject to conditions to be determined by the Local Government in each case.

12*a*. Irrigation may also be carried on from tanks, provided the previous sanction of the Sub-Divisional Canal Officer be obtained. The usual rates will be charged for such irrigation.

13. *Water supplied to cantonments, towns, &c.*—When water is supplied to forts or other military buildings, cantonments, civil stations, cities, towns, railways, public gardens or other places of public resort, either by filling of tanks or by direct flow, contracts at special rates may be accepted by the Divisional Canal Officer with the previous sanction of the Local Government.

14. *Water power.*—The use of water power may be granted by the Divisional Canal Officer at such rates and under such conditions as may be sanctioned by the Local Government in each case.

Section 32 (*a*).

15. *Tatíls.*—Divisional Canal Officers are empowered, for purposes of administration, repairs and maintenance, to order the closure of any water-course for periods which shall not extend beyond twelve consecutive days. For longer closures the authority of the Superintending Canal Officer is required.

Section 32 (*a*).

16. Orders for closures under rule 15 must be notified either—

(*a*) by a notification;

(*b*) by a special order.

Such notification or order shall be in writing under the hand of the Divisional Canal Officer and a copy shall be conveyed by the Canal establishment with due expedition to each village concerned, and delivered to the Patwári, or, in his absence, to any Lambardár. The receipt of each person to whom a copy of the notification or order is delivered shall be affixed to a schedule prepared for the purpose, which shall be recorded in the Divisional Canal Office.

It shall be the duty of the Patwári or Lambardár who receives the notification or order above described to affix it at once in a conspicuous position in the village and to make its purport generally known.

Section 32 (*a*)

17. *Stoppage of supply in improperly maintained water-courses.*—Stoppage of supply of water to any water-course under section 32 (*a*) (2) may be enforced when the Canal Officer ordering the stoppage has satisfied himself, by personal inspection, that the water-course is not maintained in proper repair. The order for such stoppage shall be in writing under the hand of the Divisional Canal Officer, and an immediate report shall be made to the Superintending Canal Officer and to the Deputy Commissioner of the district, and the special grounds for stoppage explained. The Superintending Canal Officer's order shall be final.

Section 32 (*a*).

18. *Report of closures.*—Immediate report shall be made to Superintending Canal Officer of all closures under case (1), section 32 (*a*).

19. Nothing in the foregoing rules shall be taken to affect the power of a Canal Officer to close any water-course or stop any supply of water on his own authority in cases which he deems to be of pressing emergency.

This rule comes into force from the date of the publication of this Notification.

RULE.

Qualification for holding office.

There shall be two wards, the Station Ward and the Bazár Ward. Every male rate-payer of not less than 21 years of age, who ordinarily resides within Municipal limits for three months in the year and who is not disqualified under Rule II, shall be eligible for election to the office of member of the Municipal Committee for the ward in which he is resident, provided that a candidate for the Station Ward must be the owner or occupier of property of which the annual value is not less than Rs. 500, and a candidate for the Bazár Ward of propert the annual value of which is not less than Rs. 100.

No. 309.—*Notification.*—With reference to Notification No. 1034, dated the 18th December 1890, the Hon'ble the Lieutenant-Governor is pleased to make the following Rules under the provisions of Section 154, clauses (b) to (i) inclusive, of the Punjab Municipal Act, 1884, for the regulation of elections of members of the Municipal Committee of Simla. These Rules supersede the Rules published in *Punjab Government Gazette* Notification No. 343, dated 11th May 1886, and will come into force within the limits of the Simla Municipality from the date of this Notification :—

RULES.

Qualification for holding office.

I.—Every male inhabitant of not less than 21 years of age, who ordinarily resides within Municipal limits, and is qualified to vote at the Municipal elections, shall be eligible for election to the office of member of Municipal Committee if not disqualified under Rule II.

Disqualifications for holding office.

II.—No one shall be eligible as member of the Municipal Committee who—

(1) is under contract as regards work to be done for the Municipality; or

(2) receives any remuneration out of Municipal funds for services rendered to the Municipality; or

(3) has been proscribed from Government employment; or

(4) has been convicted of any such offence, or subjected by a criminal court to any such order, as implies, in the opinion of the Local Government, a defect of character which unfits him to be a member; or

(5) is in arrears for six or more months in respect of any Municipal tax:

Provided that the Local Government may exempt any person, or class of persons, from the restriction contained in clause (2) of this rule.

Qualifications for voters, Classes A and B.

III.—There shall be two classes of voters, viz., Class A and Class B.

Class A.—House proprietors, male or female, resident or non-resident, not less than 21 years of age, shall have for houses *outside the bazárs* one vote for every Rs. 800 of rent on which house-tax is *bonâ fide* paid, and *within bazár limits* one vote for every Rs. 25 paid in house-tax or frontage-tax or in both conjointly.

Class B.—Tenants, male or female, not less than 21 years of age, *outside the Bazárs* shall have one vote for every Rs. 400, and *within bazár limits* one vote for every Rs. 125 of *bonâ fide* rental paid on which house-tax is assessed. Votes on these scales may be given for each house by either one or more *bonâ fide* tenants of such house whether used as a dwelling-house, shop, or office, or partly for one and partly for other of such purposes; but the total votes for any house shall not exceed the number allowed on the gross rental on which house-tax is paid by the proprietor.

Illustrations.—(1). A house outside the bazárs is taxed on a rental of Rs. 1,000, but having been let is occupied by three *bonâ fide* tenants, who pay altogether, say, Rs. 1,000 for the season. On this house only two votes can be given by tenants. If the taxed rental had been Rs. 1,200, there would have been three votes.

(2). Rental means the rent on which taxes are paid. For example, *B* rents a house for Rs. 600, and on Rs. 680 house-tax is assessed. *B* does not occupy the house, but transfers his lease to *C* for Rs. 1,000. *C* occupies the house. *C* has only one vote and *B* has none.

(3). *D*, a clerk in a Government office, resides in Government quarters for the season and pays Rs. 400 for the same. *D* has one vote; but the Government has no vote as a tenant in respect of the quarters occupied by *D*.

Disqualification of voters.

IV.—No one who is in arrears for six or more months in respect of any Municipal tax shall be qualified to vote.

Votes to be allowed under both classes.

V.—A proprietor occupying his own house in Simla and voting in Class A may qualify also as a tenant and vote as such in Class B.

Government votes.

VI.—The Supreme and Local Governments shall not be entitled to votes in respect of any qualifications they may possess under Rule III, but persons residing on Government premises and paying rent shall be entitled to qualify as tenants, and shall be subject in this respect to the rules applicable to the tenants of private premises.

Voting power.

VII.—Every voter may vote to the full extent of his qualification for every vacant seat, but no further. If a voter votes for more candidates than there are vacant seats, the excess shall be reduced by rejecting those to whom he may have given fewest votes, and by lot if he has given an equal number of votes to each.

Illustrations.—(1). If *A* has ten votes and the number of vacancies is three and the number of candidates six, *A* can give any number of votes not exceeding ten to one candidate, or to two candidates or to three. But he cannot vote for more than three candidates, nor can he give more than ten votes to any one candidate.

(2). If, in the case supposed, *A* votes for four candidates to whom he gives respectively ten, seven, five and three votes, the candidate with three votes will be struck out. If *A* has given ten or six or any other number to each of the four, the name of the candidate to be erased will be determined by lot.

(3). A voter may, if he pleases, vote for himself.

Votes of firms or through Agents.

VIII.—No voter may vote through another person unless such person—

(1) is in the case of any club, firm, or duly constituted society, the Secretary thereof, or the member, officer, or servant thereof ordinarily authorised to sign business communications in its behalf;

(2) in any other case, holds from the voter a power-of-attorney specially empowering him to vote at elections on his principal's behalf, or a formal proxy in writing attested by two witnesses and executed within six months of the date of the elections.

Simla to be divided into two wards.

IX.—The Municipality shall be divided into two *wards*: one to include all the bazárs and to be called the Bazár Ward, and the other to include the whole Municipal area outside the bazárs, and to be called the Station Ward. Voters in each ward shall be entitled to vote only for candidates for that ward.

X.—A voter may qualify for votes in Classes A and B both inside and outside the Bazár Ward, and if he qualifies in both of the wards into which the Municipality shall be divided may vote in both wards according to his qualification in each.

XI.—(1). Of the elected members of the Municipal Committee one-half shall represent the Bazár Ward and one-half the Station Ward.

(2). At least one of the representatives of the Station Ward and two of the representatives of the Bazár Ward shall be permanent residents of the Municipality.

A person is said to be a permanent resident of the Municipality when he ordinarily resides within Municipal limits more than eight months of the year.

Appointment of President and Vice-President.

XII.—Either the President or the Vice-President of the Municipal Committee shall be a permanent resident of the Municipality.

Term of office of President.

XIII.—The President shall hold office for three years.

When nominations may be made by Government.

XIV.—At any election if a sufficient number of qualified candidates fail to appear, or if the electors fail to return a sufficient number of qualified representatives, the Local Government may nominate qualified persons to fill the vacancies.

Definition of vacancy.

XV.—No members of the Committee who is a temporary resident of the Municipality shall be deemed to have vacated his office by reason of his absence for seven months during the winter season with intention to return to Simla.

Terms of office of elected members.

XVI.—Elected members of the Committee shall hold office for three years.

Notice to be published by the Deputy Commissioner.

XVII.—The Deputy Commissioner, or such other officer as he may appoint for this purpose, shall, at a convenient time, ordinarily not less than three weeks before the election, publish within the Municipality a notice setting forth the necessary qualifications of candidates and of electors, the number of candidates to be elected, the manner of voting, and such other matters with reference to the election as it may be considered desirable for the public to know.

Nomination of candidates.

XVIII.—(1). Candidates for election shall be proposed by qualified electors not less than two in number, who shall intimate their proposals to the Deputy Commissioner by letter addressed to him, or to such person as he may name, and signed by them. Such letter shall certify that the candidate is duly qualified and is prepared to serve on the Committee.

(2). If before the election is held an objection is taken to a candidate on the ground that he is ineligible under Rule I or II, the decision of the Election Committee thereon allowing or disallowing the candidature shall be final.

Provided that, if the objection is taken under clause (2) or clause (4) of Rule II, the Deputy Commissioner may permit the candidature to proceed, and shall, through the usual channel, obtain under said clause (2) the orders of the Local Government as to any exemption from the restriction thereby imposed, or under the said clause (4) ascertain the opinion of the Local Government as to the effect of the alleged defect of character, and shall under Rule XXXI annul the election of any elected candidate disqualified by the decision of Government thus elicited. The order of the Deputy Commissioner annulling the election under this rule shall be final.

List of voters.

XIX.—(1). Lists shall be prepared under the orders of the Deputy Commissioner on or before the 1st June, showing for each ward the number and names of all persons who are qualified voters under these Rules, and the qualifications entitling them to vote.

Proviso.

(2). It shall not be necessary to prepare a new list every year, but on or before the 1st June in each year the list of the preceding year shall be revised, and may be adopted with such alterations as may, in particular cases, be deemed necessary.

3. As soon as the list of voters is prepared, copies of the list for each ward shall be published in that ward.

Limitation of time for objections and their disposal.

XX.—No objection to the entries in the list shall be entertained unless it is preferred in writing within 21 days of its publication. All applications to be entered in the list must be made within 21 days from the date of its publication. The Deputy Commissioner, or such officer as he may appoint in this behalf, shall decide as to the validity of the objection or application, and his decision shall be final.

Voting paper and voter's certificate.

XXI.—When the revised lists have been prepared, and the objections, if any, disposed of, a voting paper in the annexed form shall be sent to each qualified voter in the Station Ward, and a certified extract from the revised list under the signature of the Deputy Commissioner shall be given in the annexed form to each qualified voter in the Bazár Ward. These certified extracts or voters' certificates must be presented at the time of election by the voters of the Bazár Ward, and no person shall vote who does not present such certificate.

Time of elections.

XXII.—Unless the Local Government otherwise directs, the elections shall be completed so as to allow of elected members taking office in July in each year or as soon after as possible.

Poll when necessary.

XXIII.—If the number of qualified candidates duly proposed under Rule XVIII exceed the number of vacancies, a poll shall be taken; otherwise such candidates shall be deemed to be elected.

Manner of recording votes.

XXIV.—When a poll is held, the votes given by voters of the Station Ward shall be recorded on the voting papers, which should be filled up and sent to the Deputy Commissioner at the time, and must be signed by the person exercising the privilege. The votes of voters in the Bazár Ward shall be given in public and in person before such officer as the Deputy Commissioner may empower to receive them, at some convenient place or places within the limits of the Municipality.

Limit of time for objection to votes.

XXV.—The voting papers and the lists of votes recorded by voters of the Bazár Ward shall, after the results of the voting have been declared, be open to inspection by any registered voter until a date to be fixed in the notice issued under Rule XVII. In the same notice a date shall be fixed, up to which objection shall be received; and after such date no objection founded on any alleged defect in the qualification of voters or record of votes shall be entertained.

Results of the elections.

XXVI.—(1). Vacancies reserved to permanent residents shall first be filled by candidates who, being permanent residents of the Municipality, have obtained most votes in the wards for which the vacancies exist.

(2). The remaining vacancies shall be filled by the candidates whose names stand highest on the poll for their respective wards.

Case of equality of votes.

XXVII.—In the case of two candidates for a single vacancy or for the last of several vacancies polling an equal number of votes, the choice between the two shall be determined by lot under arrangement to be made by the Deputy Commissioner.

Election Committee and powers thereof.

XXVIII.—(1). All questions arising under these Rules as to the qualifications of voters, number of votes, nomination and qualification of candidates, the validity of votes recorded, and other matters relating to the manner and validity of the elections, shall be determined by an Election Committee consisting of the Deputy Commissioner and two Assessors appointed by the Municipal Committee.

(2). If after the poll is declared the Election Committee allow any objection to votes founded on any defect in the qualification of voters or number or record of votes, the Election Committee shall revise the lists and, if necessary, alter the declaration of the poll in accordance with their decision.

(3). Except as is otherwise expressly provided in these Rules, the decisions of the Election Committee under the above provision shall be final.

Procedure where objection is made to the return of any candidate.

XXIX.—If within the period fixed for the receipt of objections to votes any objection is made to the return of any candidate on the ground that he is disqualified under these Rules, the Election Committee shall take such objection into consideration and may disallow it. If such Committee holds that the objection is valid, it shall report the matter for the orders of the Local Government.

Consequence if a returned candidate is disqualified.

XXX.—When a report is made under Rule XXIX and the Local Government confirms the objection to the return of any candidate, the election of such candidate shall be void, and the qualified candidate who has obtained the highest number of votes amongst unreturned candidates for the same ward shall be deemed to have been elected.

Names of elected members to be gazetted.
